

CLIMATEFAST

LET'S ACT ON CLIMATE - **FAST!**

FOR A GREEN, JUST & SUSTAINABLE FUTURE

## ACTION ALERT - February 10, 2022

### Ontario Budget Consultations - Have Your Say

**DEADLINE: FEBRUARY 11**

2022 Ontario Budget consultations are now open for you to share your ideas to help build the budget and reimagine our province's future.

However, the budget proposals are woefully inadequate in climate ambition and the survey format leaves too much room for status quo interpretations so your voice is needed to ensure an intersectional lens of equity & justice is applied.

ClimateFast has developed a public resource to boost the scope of the budget proposals, answering for the all-too-narrow & problematic multiple choice format, making it easy for you to add ideas that have been missed and make a submission robust in perspective.

## New workshop series on Climate Conversations

As the Ontario provincial election approaches it is clear we need actions that protect our health, build strong communities and create a climate just future. Raising awareness of climate impacts and the actions and solutions that can move us closer to a healthy future. Together, we can hold those elected to office on June 2nd accountable for the just, green province we want to see.

Would you like to help raise awareness? Are you interested in holding conversations in the months before the provincial election? We are holding two sessions to help people feel more comfortable talking about climate justice.

### Session #1

#### **Talking Climate in Ontario**

When: February 16, 7-8:30pm

Where: On zoom! [Sign up here! to receive a link.](#)

What: How to talk about climate justice & What a provincial KTCC could look like.  
Overview and facilitated breakouts.

### Session #2

#### **Ready to Talk Climate in Ontario?**

When: March 2, 7-8:30pm

Where: On zoom! [Sign up here! to receive a link.](#)

What: Hosting the conversation: "Who and Where?" & Facilitating the conversation: "What and How?" with facilitated working breakouts.

After the workshops, we hope to offer continued, targeted support to those who want to host or facilitate conversations in their networks and neighbourhoods ahead of the provincial election.

**Come be part of the provincial Kitchen Table Climate Conversation!**
